INDEX

A

Adams, E. P., Heaviside's operational methods, 26, vi
Adirondacks, contact metamorphosis, Agar, 95, vii
Address, annual, of President, v
Admiralty cases and British-American Commerce, Lingelbach, v
Agar, William M., Adirondacks, contact metamorphosis, 95, vii
Atomic number 72, discovery of the element, Snyder, vi
Atoms in the Wichita Meteorite, vi
Aydelotte, Frank, xii

B

Balch, Edwin Swift, Prehistoric misnomers, 57, v
Bauer, Louis A., ix
Beach reclamation, Haupt, v
Bequest of Martin G. Boyle, xi
Blakeslee, Albert F., Mutant types in Jimson weed, x
Bliss, Edward L., Immunization of cattle from Rinderpest, vii
Bovie, W. T., Biogical effect of rays, ix
Bowman, Isaiah, Map of Hispanic America, v
Brush, Charles F., Kinetic theory of gravitation, 75, vi
Burnet, Etienne, address on Pasteur, *xiv*, iii

C

Camera, Yale automatic zenith, Schlesinger, v
Campbell, W. W., Eclipse expedition, vi
Catfish, South American, Eigenmann, x
Cells, living and artificial, permeability of, MacDougall, 1, x
Characters, acquired, inheritance of, symposium on, 270–325
China and Mongolia, explorations in, Osborn, 90, vi

D

Detlefsen, J. A., Rotation of rats, inheritance of effects, 292, x
Doradidae, origin and distribution, Eigenmann, x
Duggar, B. M., on Mosaic disease of tobacco, x

E

Earth, adjustments and growth of mountains, Hobbs, 63, vii
Earth, magnetic field of, Bauer, ix
Eclipse expedition, Campbell, vi
Educational relations, xii
Eigenmann, C. H., Doradidae, origin and distribution, x
Explosives and explosive wastes, utilization of, Munroe, vi

F

Finance Committee, report of, v

G

Gall bladder, significance of, McMaster, 185, vii
Germ cell and serologic influence, Guyer, 274, x
Germ plasm, modification and inheritance of, Stockard, 311, xi
Germanium dioxide, physiological action, Müller, vii
Gravitation, kinetic theory of, Brush, 75, vi
Guyer, M. F., Germ cell and serologic influence, 274, x

H

Hammett, F. S., on Thyroid apparatus and nervous system, ix
Hanson, F. B., Inheritance of modifications in rat, 301, x
Haskins, Charles H., Spain and medieval science, iv, v
Haupt, Lewis M., Beach reclamation, v
Haupt, Paul, Hebe and Ganymede, x
Heaviside's operational methods, Adams, 26, vi
Hebe and Ganymede, Haupt, x
Helium, paper on, Moore, xii
Henderson, Lawrence T., *iii*, iii
Hispanic America, new millionth Map of, Bowman, v

Hobbs, William Herbert, Earth adjustments and growth of mountains, 63, vii

I

Indian Summer, a characteristic weather type, Ward, 48, vii
Inheritance of
acquired characters, historic sketch, Scott, 270
effects of rotation in rats, Detlefsen, 292
modifications in rats by alcohol fumes, Hanson, 301
modifications of germ plasm, Stockard, 311

J

Jimson weed, mutant types in, Blakeslee, x

L

Lick Observatory, expedition from, Campbell, vi
Linglebach, William E., British and American admiralty cases, v

M

MacDougal, D. T., on Permeability of cells, 1, x
McMaster, Philip D., Gall bladder, significance of, 185, vii
Medals, awards of, John Scott, iv
Members, admitted:
Aydelotte, Frank, xi
Duggar, Benj. M., v
Haskins, Chas. H., iv
Moore, Richard B., xi
Norris, Geo. W., iii
Ward, Robt. DeC., v
Washington, Henry S., v
Members deceased:
Barnard, Edward Emerson, iii
Bement, Clarence S., iii
Delitzsch, Frederich, iii
Dewar, James, iv
Goodale, Geo. L., xi
Morley, Edw. W., iv
Morris, James Cheston, xii
Pumpelly, Raphael, xi
Sharples, Stephen Paschall, xii
Sigsbee, Charles D., xi
Steinmetz, Charles P., xii
Sulzberger, Mayer, xii
Thayer, William Roscoe, xii
Tower, Charlemagne, iii
Waals van der, Joannes Diderik, iv
Webster, Arthur G., xii
Members elected:
Aydelotte, Frank, ix
Birge, Edward Asahel, ix
Bowman, Isaiah, ix
Buck, Carl Darling, ix
Compton, Karl T., ix
Gregory, Herbert Ernest, ix
Hazen, Charles Downer, ix
Levene, Phoebus A., ix
Merrill, George Perkins, ix
Mitchell, Samuel Alfred, ix
Moore, Richard Bishop, ix
Sinclair, William John, ix
Stefansson, Vilhjalmur, ix
True, Rodney H., ix
Vaughan, Thomas Wayland, ix
Müller, John H., on Germanium dioxide, vii
Minerals, analysis of, Washington, vi
Minutes, iii–xii
Misnomers, prehistoric, Balch, 57
Moore, Richard B., on Helium, xii
Munroe, Charles E., Utilization of explosives and explosive wastes, vi

N

Nervous system and thyroid apparatus, Hammett, ix

O

Officers elected, viii
Osborn, Henry Fairfield, Explorations in China and Mongolia, 90, vi

P

Pasteur, Life and services of, *iii*
President, annual address, v

R

Randall, H. W., Infra-red spectra, 326, vi
Rat, albino, inheritance of modifications, Hanson, 301, x
Rays, biological effect of, Bovie, ix
Rheumatic fever, histological lesions of, Swift, 175, vii
Rinderpest, immunization from, Bliss, vii
Rotation, long continued effects, Detlefsen, 292, x
Russell, Henry Norris, Stars and atoms, vii

S

Schlesinger, Frank, Automatic zenith camera, vi
Scott, John, medal awards, iv

Aston, Francis Wm., iv
Day, Arthur L., iv
Eijkman, C., iv
Thomson, Sir J. J., iv
Scott, Wm. B., Historical sketch of inheritance of acquired traits, 270, x
Serological influence on germ cell, Guyer, 274
Shapley, Harlow, Stars in science, iii
Shepherd's purse, hybrids in, Shull, x
Shull, Geo. H., Shepherd's purse hybrids, x
Snyder, Monroe B., Element of atomic number 272, vi
Spain and medieval science, Haskins, v
Spectra, infra-red, Randall, 326, vi
Stars and atoms, Friday evening lecture, Russell, vii
Stars in science progress, Shapley, iii
Stockard, C. R., Modification of germ plasm, 311, xi
Swift, Homer F., Histologic lesions of rheumatic fever, 175, vii
Symposium, inheritance of acquired traits, 270–325, x–xi

T

Thyroid apparatus and nervous system, Hammett, ix
Tobacco, mosaic disease of, Duggar, x
Treasurer, report of, v

W

Wanless, Harold R., White River beds of South Dakota, 190, vii
Ward, Robert DeC., Indian Summer, 48, vii
Washington, Henry G., Chemical analysis of minerals, vi
Wenrich, David H., on Protozoan parasites, iii
White River beds of South Dakota, Wanless, 190, vii
